

UNIFIED – HIV Health and Beyond
January 3, 2022
Detroit, Michigan

Honoring Jim Toy

UNIFIED – HIV Health and Beyond’s (UNIFIED) board, leadership and staff are saddened to start 2022 with news of Jim Toy’s passing on New Year’s Day. A founding member of Wellness Networks/Huron Valley (now UNIFIED) in 1986, he leaves behind an enduring legacy in the field of HIV care, prevention, and advocacy and in the fight for LGBT equality.

We join the community in honoring a true champion of social justice who served as a mentor and role model to countless individuals. His guidance, inspirational presence and visionary personality will be missed but never forgotten. With his passing we offer a renewed pledge to continue the trailblazing efforts he began and to honor his legacy through our mission to advance HIV prevention, access to health care, community research and advocacy.

Our vision of using innovative approaches to help residents of Southeast Michigan living with or affected by HIV achieve optimal health and our commitment to being an effective and powerful voice, providing leadership and advocacy for the communities we serve is deeply rooted in what Mr. Toy stood for. His ideals and dreams of what could be will live on in our efforts.

Please join us in honoring Jim Toy.
